

Marmox Polyprofil®

Drip strips

Marmox Polyprofil drip strips are prefabricated profiles for use as a drip edge, or water nose.

Mounted on the underside of balconies, bridge caps or building overhangs, for example, Marmox Polyprofil drip strips will direct the flow of water, significantly reducing the risk of concrete damage caused by water back-flow.

Made from a light-coloured polymer concrete with a low specific weight, the weather proof drip strips are easy to install, indoors and outdoors, and can be coated with epoxy or polyurethane resin based paints.

Key Benefits

- Balconies
- Car Parks
- Bridges
- Overhangs
- Awnings
- Soffits

Specification

**Polyprofil Drip strip
T3 / T3 Flex**

30 x approx. 25 x approx. 15 mm
(H = approx. 14 mm)

**Polyprofil Drip strip
S40**

40 x 14 mm

**Polyprofil Drip strip
T60**

58 x 13 mm

*Polyprofil drip strips are supplied in 1 meter lengths.

WEATHERPROOF

FAST, EASY
INSTALLATION

LIGHTWEIGHT,
EASY HANDLING

EASY TO CUT
AND INSTALL

The T3 drip profile is available in our special polymer concrete mix, allowing it to be flexible to accommodate curves – **The T3 Flex**

Installation

Polyprofil drip strips can be cut with a diamond cutting disc, or with a fine-toothed saw or a grinder.

Ensure that all surfaces are clean, dry, firm and free from oil and grease, before fixing using Marmox MSP360 adhesive; care must be taken to ensure that the profiles are sealed at the joints.

Useage examples

Polyprofil drip strip T3* on the underside of a balcony slab

Polyprofil drip strip T3 Flex can bend to accommodate a curved overhang or an arch

Polyprofil drip strip S40 on the underside of a balcony slab

Polyprofil drip strip T60 on the front edge of a balcony slab

Polyprofil drip strip T60 on the underside of a balcony slab

*The T3 is suitable as an inexpensive up-stand or as a base profile for floors.

Pre-coated drip profiles

In addition to our standard range, we offer two drip profiles, the T20 and T30, that are pre-finished with a coloured durable polyurethane resin coating – simply choose from the RAL colour chart. These offer a fuss-free way to create a clean edge or attractive architectural detailing. Please call for details.

T20

T30

Polyprofil Drip strip T20

approx. 28 x 20 x 20 mm
(H = approx. 13 mm)

Polyprofil Drip strip T30

approx. 30 x 24 x 15 mm
(H = approx. 11 mm)
